

## Where do I find my login details or customer number?

You can find your customer number / login details here:

- the first E-Mail that was sent to you after signing up (subject line: "Your login details for UseNeXT")
- in the member area on [www.usenext.com](http://www.usenext.com)
- within your username - your customer number is the row of digits between the dashes: avi-**123456**-xx

In case you lost your login details, you can request your password or have your username resent by clicking [here](#). After submitting the e-mail address that you used upon registration, we will immediately send you your login details.

With your login details you can log into the member area on [www.usenext.com](http://www.usenext.com) and also onto the newsserver in your newsreader program.
