

What plans does UseNeXT offer and how can I get more or less download volume?

You can view an [overview](#) of all our plans. In addition to selecting the size of your volume plan you can also choose from differing running periods.

You can change your package in the member area, just click on "Download volume recharge". Please note: if you currently have a multi-month package, you can only choose a new package once all monthly recharges have been used up. This is to make sure that you don't lose out on paid for volume.
