

Can I use UseNeXT on my smart phone or tablet device?

There are newsreader apps for mobile devices that you can use to connect to UseNeXT.

To configure your app for our service, enter the following data:

**Highspeed (maximum download speed):**

Newsserver: high.usenext.de

Port: 119/443 (Port 563 if using SSL encryption)

Your username (avi-xxxxxxxxxxx-xxx)

Your password

**Flatrate (up to 2.000 kbit/s without using highspeed data volume):**

Newsserver: flat.usenext.de

Port: 119/443 (Port 563 if using SSL encryption)

Your username (avi-xxxxxxxxxxx-xxx)

Your password

You can read up on the differences between flatrate and high speed download in our FAQ [here](#).
